

ABBEY VETERINARY

GROUP

THE PUPPY and KITTEN PRACTICE

We have been trusted by the local community for over a century and are here to support you with over 238 combined years of veterinary experience and a team of qualified veterinary nurses you can trust.

Not just during the day but every day and every night, 365 days a year, for the life of your pet.

Because the life of your pet is important to us.

The Abbey Vet Group has been looking after Paisley's and Inverclyde's pets for generations. We give puppies and kittens more than anyone else in the area and stand alone in providing an emergency service run by our own vets on site in Paisley and Greenock so that, should the worst happen, your pet is seen by us quickly and at reasonable cost. (And not sent somewhere in Glasgow at great expense)

"your pet is important to us..."

We don't just **vaccinate** your puppies and kittens, we **nurture** them.

Most importantly, when you choose the Abbey Veterinary Group to look after your pet, you become part of an experienced Veterinary Family, owned and managed by local people who have you and your pet's interests at heart.

We are a **FAMILY** you can trust.

Phone for our puppy vaccination packages and save up to **45%**
